OF

DISTANCES IN BENGAL.

Published under the authority of the Government of Bergal.

CALCUTTA:

BENGAL GOVERNMENT PRESS.

1924.

[For official use only.]

PREFACE.

The Manual of Distances in Bengal was in the past maintained by the Accountant-General, Bengal. He has, however, ceased to be responsible for it, and the present edition is now published by the Local Government to enable controlling officers adequately to check distances in travelling allowance bills submitted to them—a matter in which they have full responsibility under the subsidiary rules 156 (b) (Reserved) and 146 (b) (Transferred). All distances charged and passed in future should be in accordance with this Manual.

In the present edition of the Manual as in the previous editions there are two tables for each district, one showing distances between places in the district and the other showing distances from the district headquarters to the headquarters of other districts; a separate table for Calcutta itself and a separate table also showing the joining time admissible from Bombay to the headquarters stations of all districts; particulars as to the joining time admissible for transfers between the headquarters stations of different districts; and a table showing the distances and further joining time for journeys between Calcutta and the headquarters of other Provinces.

It is requested that errors, if any, as well as subsequent alterations in the routes and distances may be intimated to this Department.

A. MARR,

Secretary to the Government of Bengal, Finance Department.

i The distance shown is the distance from Collector's Court to Mada Station, to which the distance from the head-quarters of other districts to steamer ghat or railway station of such districts, as the case may be, is to be added (such distances are not known).

2 The distances are calculated from the time table of 1920 and are approximate.

3 The distance shown is Mada to Berhampur, head-quarters of Murshidabad.

4 Comilla.

5 Not shown.

6 Two miles represent distance between Jiaganj and Azimganj Railway station.

<sup>W. B.—1. Where the route is only by rail, no distance by steamer has been shown.
2. Where both have been shown, the route is by both rail and steamer, and in such cases the distance to the outstanding districts will be the distance by rail plus the distance by steamer (both of which are shown).
3. Distances by rail are taken from distance and fare chart and verified by calculation from time table.</sup>

The ferry steamer service runs from Pabna to Kushtia once and from Pabna to Paksey once daily during the month of June to September and from Pabna to Paksey twice daily during the month of October to May. The steamer fare from Pabna to either Paksey of Kushtia is the same, though the distances vary. As the journey may have to be performed either vid Paksey or vid Kushtia in different seasons of the year, in all cases alternative routes have been shown.

The distance from Pabna to the steamer station is taken to be two miles. The distances from railway or ste. mer stations to the different places may be correctly ascertained by referring to the reports from the respective districts.
